# Summary

Linking Teacher Connect Gradebook to Google Classroom creates a one-way integration that pulls information from Google Classroom into Teacher Connect. Teachers control assignment selections and the flow of score information using the Link Assignments and Sync features.

- Link Existing Assignments Creates a link between an existing Teacher Connect Gradebook assignment and a Google Classroom assignment.
- Import New Assignments Automatically creates a link by importing assignments from Google Classroom into Teacher Connect.
- Sync Assignment Scores (Manual) Teachers run the sync process for each assignment in Teacher Connect that imports new or updated scores from Google Classroom.
- Sync Assignment Scores (ZAP) Use Guru ZAPS to run the sync process for ALL linked assignments and import new or updated scores from Google Classroom.

# **Link Assignments**

## Link Existing Teacher Connect Assignments to Google Classroom Assignments

## Teacher Connect > Gradebook: Assignment Dropdown Menu

Locate the existing assignment in Teacher Connect and select the drop down on the right-hand side of the assignment name. Then select the "Link Google Classroom" option from the available options.

Clicking the Link Google Classroom option opens the "Link Assignment with Google Classroom" window.

Important: Teacher and Student email addresses MUST match exactly in Google Classroom AND the Student Information System.

## Important:

Once Teacher Connect assignments are linked to Google Classroom assignments, all assignment updates MUST be made in Google Classroom and then synced to Teacher Connect.

#### Note:

Once an assignment is linked with Google Classroom, the assignment score column will be **"Locked"** in Teacher Connect. This lock requires the sync process to update assignment scores.

#### Note:

A Link and Unlink to Classroom button also appears in the dropdown when adding new or editing existing assignments.

## Select the Google Classroom course.

# Sync Assignment Scores

# Sync Google Classroom Assignment Scores to Teacher Connect Gradebook

Teacher Connect > Gradebook: Assignment Dropdown Menu

Use the **Sync Google Classroom** feature to **import assignment scores from Google Classroom** to the Teacher Connect Assignment. Select the drop down on the right-hand side of the assignment name. Then select the "Link Google Classroom" option from the available options.

Once the sync is complete an information message displays that the Sync was successful.

## Important:

Once Teacher Connect assignments are linked to Google Classroom assignments, all assignment updates MUST be made in Google Classroom and then synced to Teacher Connect.

#### Student Email & Google Sync:

Students are matched between the two gradebooks based on the student email address. Avoid syncing issues by verifying that all student email addresses in Google Classroom exactly match the student email addresses in the SIS.

## Important Reminder:

Assignment grades in Google Classroom that are in "Draft" state will **NOT** sync with Teacher Connect.

## Automate Sync Process:

A nightly process called the Google Classroom Zap can be set up by your system administrator to automate the sync process. Check with your system administrator to see if a zap is available for syncing assignment scores. Please note that assignment scores in Google Classroom that are in a "Draft" state will NOT sync with Teacher Connect.

# **Unlink Assignments**

# Unlink Teacher Connect Assignments from Google Classroom Assignments

## Teacher Connect > Gradebook: Assignment Dropdown Menu

When an assignment in Teacher Connect is unlinked from an assignment in Google Classroom, then grade entry is enabled in Teacher Connect, and the user can no longer sync grades with Google Classroom.

Locate the existing assignment in Teacher Connect and select the drop down on the right-hand side of the assignment name. Then select the "Unlink Google Classroom" option from the available options.

#### Important:

Once an assignment is unlinked from Google Classroom, assignment scores will no longer sync from Classroom to Teacher Connect.

Note: **Unlink Google Classroom** options are available in the edit

X

screen of existing assignments, or by viewing the gradebook Setup screen and

clicking the unlink icon.

OK

Assigne	ed		Zulu Student-QA Missing (See history)
	Alfa Student-QA	90 Draft	
Solution	Beta Student-QA	<b>85/100</b> Draft	
	Charlie Student-QA	<b>70</b> Draft	
	Delta Student-QA	<b>100</b> Draft	
	Echo Student-QA	<b>95</b> Draft	

# **Google Classroom ZAP**

A nightly process called "Google Classroom Zap" can be set up by your system administrator to automate the sync process. Student assignment scores that have been updated within a designated number of days will "automatically" sync overnight when the Zap runs. Your system administrator can control the number of days.

The Google Classroom Zap process will sync assignment scores when the following criteria are met:

- Assignment is linked to a Google Classroom assignment
- Google Classroom scores were modified within the window of days specified in the Zap settings
- Google Classroom assignment scores are not in draft state

Check with your system administrator to see if this process is set up on your system.
